

End of Year PD Pops

Cross the Finish Line Strong!

- May 7 - Google: Organize My Life - Kierston McKinley
 - Come to this session to learn hacks, tips, tricks, and so much more Google-related. We'll look at workflow skills, underrated tools, and simple tips to keep you more organized using Google tools.
- May 13 - Elementary Principals - Learn About the 6-day Series - Strengthening Your School's K-6 Math Instruction by Making Classrooms Mathematically Meaningful- Ryan Flessner
 - Learn about Ryan Flessner's 6-day workshop series that will engage educators in an examination of meaningful mathematical teaching and learning. The sessions will highlight a plethora of research-based practices and are designed for school-based teams of teachers. This PD Pop will discuss the series and answer any questions on what to expect, what your team will take away from it, and determine if it is right for your corporation!
- May 16 - Google Drive: End of year Organization! - Kierston McKinley
 - Does your Google Drive DRIVE you nuts? I'm here to help! We are going to take these 45 minutes to learn how to better organize our Google Drive then we are actually going to DO it! Leave this session with a more organized Drive and a better setup for organizing it in the future. (K-12)

All May PD Pops will be recorded and shared with all registrants afterwards!

FINISH YOUR YEAR OFF WITH DYNAMIC PD POPS!
