NOTEBOOK CIRCUITS

MAKE-IT, TAKE-IT KITS FOR
YOUR CLASS!

FREE TO T4

Limited to the First 30 Registrants!

May 1, 2024

9:00 - 12:00

Join the Purdue Science Outreach team for Notebook Circuit experiments that will introduce you to the concepts of charge, electrical energy and electric current, using paper models and magnetic white boards. You will physically see what a simple circuit looks like and how it works, and how more complex circuits are different. You will also be able to measure voltage and current with a multimeter, to learn about energy transformations occurring in the examples of the different kinds of circuits you construct.

Leave the workshop with a classroom set of materials!

May 16 - Virtual Workshop with
Valentina Gonzalez!

Designing Success for MLs (K-5)

In today's diverse educational landscape, it's
essential for educators to equip themselves with

the knowledge and tools to support multilingual learners effectively.

Join Valentina Gonzalez as she guides participants through culturally inclusive instruction, differentiated pedagogy, language acquisition, assessment and progress monitoring, and building a supportive community. Participants will leave this interactive and engaging workshop with a comprehensive toolkit of strategies and

resources to design success for the MLs in the classroom.

This workshop will be a full-day, virtual session from 9:00-3:00 and will NOT be recorded.
